

2025 Junior Secondary Stationery List

Welcome to Junior Secondary Schooling. The stationery list indicates a variety of equipment and stationery that is required in order for the student to participate in classroom learning. Most consumables and equipment are provided as part of the **Student Resource Scheme**, however, the following items are to be supplied by the student. A number of the items purchased are able to be used across year levels and therefore do not need to be purchased new each year. Please identify the subjects that will be studied by your child to prepare your list of stationery.

NOTE: All Science, Industrial Technology and Home Economics students require shoes with impervious uppers. Due to Workplace Health and Safety students may not be able to enter laboratories and practical rooms if such footwear is not worn
